302 Entrance

Figure 1

Pull into **garage #1** into any bay. The ticket machine at the bay will prompt you to take a ticket. Press the blue button to take one and be sure to bring it in with you; we will need it to validate your parking.

Leave the garage and cross Washington Street. In order to enter the Government Center, you must use the public entrance. The public entrance is currently on the far eastern side of the building facing the Statehouse off of N Senate Ave.

After clearing security, go straight down the hallway through two sets of double doors and past the escalator, then turn left and go straight back past the restrooms as far as you can. Our office is here in Room E145.

Please call 317/232-7772 if you have any questions.
